Grow Old With Dogs

When I am old...

I will wear soft gray sweatshirts...
and a bandana over my silver hair....
and I will spend my social security checks on
wine and my dogs.

I will sit in my house on my well-worn chair and
listen to my dogs' breathing.

I will sneak out in the middle of a warm
summer night and take my dogs for a run, if my
old bones will allow...

When people come to call,
I will smile and nod as I show them my dogs...
and talk of them and about them...
....the ones so beloved of the past
and the ones so beloved of today....

I will still work hard cleaning after them,
mopping
and feeding them and whispering their names in
a soft loving way.

I will wear the gleaming sweat on my throat,
like a jewel and I will be an embarrassment to
all...
especially my family...
who have not yet found the peace

in being free to have dogs as your best friends....

These friends who always wait, at any hour,
for your foot fall...
and eagerly jump to their feet out of a sound
sleep, to greet you as if you are a God.
With warm eyes full of adoring love and hope
that you will always stay,
I'll hug their big strong necks...
I'll kiss their dear sweet heads...
and whisper in their very special company....

I look in the Mirror...
and see I am getting old....
this is the kind of person I am...
and have always been.
Loving dogs is easy, they are part of me.
Please accept me for who I am.
My dogs appreciate my presence in their
lives...
they love my presence in their lives.....
When I am old this will be important to me...
you will understand when you are old...
if you have dogs to love too.

Wrinklegram health matters!

Artificial Respiration and CPR

If your dog becomes unconscious, respiratory arrest may occur, and usually occurs before cardiac arrest. The heart may continue to beat for several minutes after the breathing stops. Artificial respiration, or rescue breathing, must begin immediately to save your dog's life. If the heart stops, chest compressions must be given right away to keep the blood pumping. Artificial respiration and chest compressions given together are called cardiopulmonary resuscitation, or CPR. Artificial Respiration If your dog has gone into respiratory arrest, begin artificial respiration immediately.

Lay your dog on his side on a flat surface. Be sure your dog has stopped breathing: watch for the rise and fall of the chest, feel for breath on your hand, look at the gums - they will turn blue from lack of oxygen.

Check the airway - it must be clear. Open the mouth and look for a foreign object. If an object is blocking the airway, grab the tongue and pull it outward. If this does not dislodge the object, use your fingers, pliers, or tongs to grasp it. If the object cannot be reached or pulled out, use the Heimlich maneuver.

Once the airway is clear, begin rescue breathing. With your dog on his side, lift the chin to straighten out his throat. Use one hand to grasp the muzzle and hold the mouth shut. Put your mouth completely over the nose and blow gently; the chest should expand. Blow just enough to move his chest (blow harder for large dogs, gently for cats and small dogs).

Wait for the air to leave the lungs before

breathing again. Continue this, giving 20 breaths per minute (one breath every three seconds), until your dog breathes on his own or as long as the heart beats. Continue to monitor the heartbeat.

CPR If your dog's heart has stopped beating, CPR must begin immediately. It is best to have two people performing CPR - one continuing artificial respiration while the other does chest compressions. Follow the instructions for artificial respiration, alternating with chest compressions. For two people performing CPR, alternate one breath with three compressions. For one person performing CPR, alternate one breath with five compressions.

For Small Dogs (under 30 pounds) Lay your dog on her side on a flat surface. Place the palm of your hand on the rib cage over the heart. Place your other hand on top of the first. (For puppies and kittens, put your thumb on one side of the chest and the rest of your fingers on the other side.) Compress the chest about one inch. Squeeze and release rhythmically at a rate of 80 to 100 compressions per minute.

For Medium & Large Dogs (over 30 pounds) Lay your dog on her side on a flat surface. Place one hand on top of the other over the widest portion of the rib cage, not over the heart. Keeping your arms straight, push down on the rib cage. Compress the chest $\frac{1}{4}$ of its width. Squeeze and release rhythmically at a rate of 80 compressions per minute. Continue CPR until your dog breathes on his own and has a steady heartbeat.

KENNEL CLUB
MS, INC

- September, 2006

**INTRODUCING OUR NEW ADDITION - LASHES!
CURRENTLY NUMBER 1 SHAR-PEI
IN THE UNITED STATES**

The Chinese Shar-Pei Club Of Canada
Minutes – Executive Meeting
May 16, 2006 – By Teleconference

Roll Call

Jacquie Golden
Anik Viger
Sharon Palmay
Andrea Robins
Karen Hollis
Stephane Dalton - absent
Lyne St. Gelais – absent

Meeting called to order at 8:15pm Eastern Standard Time

Motion to accept the Feb 16, 2006, minutes as written made by Sharon and seconded by Karen. Motion to accept the March 15, 2006 Special Meeting as written made by Sharon and seconded by Andrea.

President:

There was no election as only one person was nominated for positions, with no one nominated for Show Chairperson, Secretary, or Prairie Director. Anik will be speaking to Glen Cosier about the Show Chairperson position instead of Central Director as he was nominated and accepted for. AGM will be at Limestone on July 29th, 2006. Anik will send Karen all the information for the booster and AGM that is being held at Limestone.

2006 Nationals update – Ribbons still need to be paid for – need the invoice from the company. Sweeps prizes have been paid for. Over all everything is pretty much set up and ready to go. Items still needed for auction.

Jacquie has a contact in England that said they would donate 15% of her sales to rescue.

Boosters 2006 – Limestone show – July 27-30– All paperwork has been done and everything is ready for this booster. Markham booster Aug 24-27 is also ready to go.

Breeders List – in reviewing a breeder's website, that was brought to the executives' attention, it was noted that they are primarily breeding for mini Shar-Pei which is against the clubs constitution. The breeder's money will be sent back for the breeders list.

Part of the job description for the directors of each region will be to review each breeder in their region on a quarterly basis to ensure that each breeder is breeding to the current standards according to club constitution and by-laws. Motion by Sharon seconded by Andrea.

1st Vice President Report – nothing to report

2nd Vice President Report – nothing to report

Secretary Report – 52 paid members as of May 6, 2006.

Treasurer Report – Accepted as presented. Motion by Andrea to accept the report and seconded by Karen.

Show Chairperson Report – no report

Central Director Report – no member at this time

Eastern Director Report – absent

Western Director Report – nothing to report

WrinkleGram – Will be sent out by end of week.

Unfinished Business – none

New Business - none.

Next meeting June 12, 2006 at 8:00pm Eastern Standard Time

Motion to adjourn by Sharon seconded by Andrea. Meeting adjourned at 9:27 EST.

Wrinklegram funnies!

How many dogs does it take to change a light bulb?

1. Golden Retriever: The sun is shining, the day is young, we've got our >> whole lives ahead of us, and you're inside worrying about a stupid burned out bulb?
2. Border Collie: Just one. And then I'll replace any wiring that's not up to code.
3. Dachshund: You know I can't reach that stupid lamp!
4. Rottweiler: Make me.
5. Boxer: Who cares? I can still play with my squeaky toys in the dark.
6. Lab: Oh, me, me!!!! Pleeeeeeeeeeze let me change the light bulb! Can I? Can I? Huh? Huh? Huh? Can I? Pleeeeeeeeeeze, please, please, please!
7. German Shepherd: I'll change it as soon as I've led these people from the dark, check to make sure I haven't missed any, and make just one more perimeter patrol to see that no one has tried to take advantage of the situation.
8. Jack Russell Terrier: I'll just pop it in while I'm bouncing off the walls and furniture.
9. Old English Sheep Dog: Light bulb? I'm sorry, but I don't see a light bulb!
10. Cocker Spaniel: Why change it? I can still pee on the carpet in the dark.
11. Chihuahua: Yo quiero Taco Bulb. Or "We don't need no stinking light bulb."
12. Greyhound: It isn't moving. Who cares?
13. Australian Shepherd: First, I'll put all the light bulbs in a little circle...
14. Poodle: I'll just blow in the Border Collie's ear and he'll do it. By the time he finishes rewiring the house, my nails will be dry. How many cats does it take to change a light bulb? The Cat's Answer: Cats do not change light bulbs. People change light bulbs. So, the real question is: "How long will it be before I can expect some light, some dinner, and a massage?"

ALL OF WHICH PROVES, ONCE AGAIN, THAT WHILE DOGS HAVE MASTERS, CATS HAVE STAFF!

REPORT FROM THE U.S. NATIONAL SPECIALTY HELD IN SPRINGFIELD MO.

By Glen Cosier

As the new Central Director of the Canadian Shar-pei Club I would just like to say how proud I was to be part of the Group that attended The Chinese Shar-pei specialty in Springfield MO. this year. There were ten members of the Canadian Club that made the grueling 18-20 hour trip from Ontario and even longer trip for the members from Quebec. Although we all arrived tired and bleary eyed I don't think I will get any argument it was well worth the trip. The gains that are made in knowledge, networking, socializing, comparing and judging can not be achieved through any of the latest technical communication methods that are available to us. Pictures, emails and phone calls can't compare to the real thing. One of the things that impressed me the most about the attendance was the wide geographic area that was represented at the show. As you looked around the parking lot there was dog mobiles from all over the USA and participants from Europe. This was certainly the place to be if you wanted to know what was happening in the Shar-pei world. I believe that the judging panel was thorough, fair, and they judged on their interpretation of the breed standard. There was a good blend of professional handlers and breeder/owner handlers represented. The results have been posted on the CSPCA website and the photographs and awards will be listed in the next issue of "The Barker". I want to congratulate everyone who attended to this very worth while event for the betterment of the Breed: Anik Viger, Lynn Ste-Gelais, Kayla Smith, Jen Palmay, Sharon Palmay, Andrea Robins, Margaret and Kevin McMurdy, and Linda Cosier. Our participation in confirmation and obedience proves that we in Canada are strong competitors and are doing our part in producing quality Shar-pei. Thank you, I hope to see everyone at Decatur IL next year.

**Glen Cosier, Central Director

BREED STANDARD

Origin and Purpose

It is generally accepted that the Chinese Shar-Pei originated during the Han Dynasty (202 BC-220 AD) in the village of Dah-Let near the South China Sea. These dogs were all purpose working dogs to guard the family, farms and temples.

General Appearance

An alert, dignified, active, compact dog of medium size and substance, square in profile, close-coupled, the well proportioned head slightly but not overly large for the body. The short, harsh coat, the loose skin covering the head and body, the small ears, the "hippopotamus" muzzle shape and the high set tail impart to the Shar-Pei a unique look peculiar to him alone. The loose skin and wrinkles covering the head, neck and body are superabundant in puppies but these features may be limited to the head, neck and withers in the adult.

Temperament

Regal, alert, intelligent, dignified, lordly, scowling, sober and snobbish, essentially independent and somewhat standoffish with strangers, but extreme in his devotion to his family. The Shar-Pei stands firmly on the ground with a calm, confident stature.

Size, Proportion, Substance

The height is 18 to 20 inches (45-50 cm) at the withers. The weight is 40 to 60 pounds (18-27 kg). The dog is usually larger and more square bodied than the bitch but both appear well proportioned. Proportion: The height of the Shar-Pei from the ground to the withers is approximately equal to the length from the point of breast-bone to the point of rump.

Coat and Colour

Coat-The extremely harsh coat is one of the distinguishing features of the breed. The coat is absolutely straight and offstanding on the main trunk of

the body but generally lies somewhat flatter on the limbs. The coat appears healthy without being shiny or lustrous. Acceptable coat lengths may range from extremely short "horse coat" up to the "brush coat", not to exceed one inch in length at the withers. A soft coat, a wavy coat, a coat in excess of 1" (2.5cm) in length at the withers or a coat that has been trimmed is a major fault. One coat type is not to be preferred over the other. The Shar-Pei is shown in its natural state. Colour-Only solid colours and sable are acceptable and are to be judged on equal basis. A solid coloured dog may have shading, primarily darker down the back and on the ears. The shading must be variations of the same body colour (except in sables) and may include darker hairs throughout the coat. A pigmented dog may have a darker mask on the face.

Head

Large, slightly but not overly, proudly carried and covered with profuse wrinkles on the forehead continuing into side wrinkles framing the face. Eyes Dark, small, almond-shaped and deep set, displaying a scowling expression. In the dilute coloured dogs the eye colour may be lighter. Ears Extremely small rather thick, equilateral triangles in shape, slightly rounded at the tips, edges of the ear may curl. Ears lie flat against the head, are set wide apart and forward on the skull, pointing toward the eyes. The ears have the ability to move. Skull - Flat and broad, the stop moderately defined. Muzzle - One of the distinct features of the breed. It is broad and full with no suggestion of snipiness. The length from nose to stop is approximately the same as from stop to occiput. Nose Large and wide and darkly pigmented, preferably black but any colour nose conforming to the general coat colour of the dog is acceptable. In dilute colours, the preferred nose is self-coloured. Darkly pigmented cream Shar-Pei may have some light pigment either in the centre of their noses or on their entire nose. The lips and top of muzzle are well padded and may cause a slight bulge at the base of the nose. Tongue, Roof of Mouth, Gums and Flews Solid bluish-black is preferred in all coat colours except in dilute colours, which have a solid lavender pigmentation. A spotted tongue is a major fault. A solid pink tongue is a disqualification (Tongue colors may lighten due to heat stress; care must be taken not to confuse dilute pigmentation with a pink tongue). Teeth - Strong, meeting in a scissors bite. Deviation from a scissors bite is a major fault.

Neck

Neck - Medium length, full and set well into the shoulders. There are moderate to heavy folds of loose skin and abundant dewlap about the neck and throat.

Forequarters

Shoulders - Muscular, well laid back and sloping. Forelegs - When viewed from the front, straight,

Breed Standard...continued

moderately spaced, with elbows close to the body. When viewed from the side, the forelegs are straight, the pasterns are strong and flexible. The bone is substantial but never heavy and is of moderate length. Removal of front dewclaws is optional. Feet - Moderate in size, compact and firmly set, not splayed.

Body

Topline The topline dips slightly behind the withers, slightly rising over the short, broad loin. Chest - Broad and deep with the brisket extending to the elbow and rising slightly under the loin. A level, roached or swayed topline shall be faulted. Back - Short and close-coupled. Croup - Flat, with the base of the tail set extremely high, clearly exposing an uptilted anus.

Hindquarters

Muscular, strong, and moderately angulated. The metatarsi (hocks) are short, perpendicular to the ground and parallel to each other when viewed from the rear. Hind dewclaws must be removed. Feet as in front. Tail - The high set tail is a characteristic feature of the Shar-Pei. A low tail shall be faulted. The tail is thick and round at the base, tapering to a fine point and curling over to either side of the back. The absence of a complete tail is a disqualification.

Gait

The movement of the Shar-Pei is to be judged at a trot. The gait is free and balanced with the feet tending to converge on a centre line of gravity when the dog moves at a vigorous trot. The gait combines good forward reach and a strong drive in the hindquarters. Proper movement is essential.

Major Faults

1. Deviation from a scissors bite.
2. Spotted tongue.
3. A soft coat, a wavy coat, a coat in excess of 1" (2.5 cm) in length at the withers or a coat that has been trimmed.

Disqualification

1. Pricked ears.
2. Solid pink tongue.
3. Absence of a complete tail.
4. Not a solid colour, i.e. Albino; Brindle; Parti-coloured (patches); spotted (including spots, ticked or roaning); Tan-Pointed Pattern (including typical black and tan or saddled patterns or shading that has a defined pattern i.e. distinct butterfly pattern on the chest).

HURRY...HURRY... GREAT SAVINGS FOR YOU!!!

Receive great savings by advertising in the WrinkleGram for one full year. Submit your ad choice in pdf or .jpg formats and payment to WrinkleGram Editor, Karen Hollis, 184 St. Lawrence Street E. Box 122, Madoc, ON K0K 2K0 Snail mail or e-mail your ad to karen.hollis@sympatico.ca

Send your completed ad to run in the WrinkleGram beginning with the January 2006 issue. Submit a different ad to run each time if you wish, or run the same ad each issue, however if the print deadline is not met the ad from the previous issue will be run!

Choice #1 - 1 year subscription ad rate includes: 6 full page photo ads (1 full page per issue of WrinkleGram/year).

Regular cost \$150.00 - 1 year subscription cost, only \$100.00

Choice #2 - 1 year subscription ad rate includes: 5 full page photo ads and 1 full colour front cover (reserve the month of issue except for the National issue)

Regular cost \$175.00 - 1 year subscription cost only \$150.00

Choice #3 - 1 year subscription ad rate includes: 5 full page photo ads and 1 full colour back cover (reserve the month of issue)

Regular cost \$160.00 - 1 year subscription cost only \$125.00

Choice #4 - 1 year subscription ad rate includes: 6 half page photo ads (1/2 page per issue of WrinkleGram/year)

Regular cost \$90.00 - 1 year subscription cost only \$65.00

Note: If ads are not submitted in finished pdf, word or .jpg format there is a \$50. design fee payable to Karen Hollis.

Business Cards	15.00	\$10.00
Obituaries	Free	

All advertising rates and procedures are subject to change at any time.

Procedures for Submitting Advertising

1. Send all advertising in pdf or .jpg format to: karen.hollis@sympatico.ca or mail to Karen Hollis @ 184 St. Lawrence St. E., Box 122, Madoc, ON, K0K 2K0. There is a \$50 fee for design of your ad payable by cheque or PayPal to Karen Hollis if not submitted in ready to print format.
2. Make all advertising cheques payable to: The Chinese Shar-Pei Club of Canada or use PayPal by using the e-mail address aniviger@sympatico.ca.
3. No ad will be accepted without full payment prior to issue of the WrinkleGram.
4. All photos that are to be returned must have your name and address on the back, accompanied by a stamped, self-addressed envelope.
5. The WrinkleGram is not responsible for errors in advertising. All efforts will be made to ensure accuracy of the copy.

Newsletter Policy

1. Only members in good standing with the CSPCC may advertise in the WrinkleGram.
2. The WrinkleGram will only accept promotional advertising for the Chinese Shar-Pei whose appearance is described as acceptable in the Official Chinese Shar-Pei Standard.
3. News of any awards or placements will be published for Shar-Pei owned by members only with exception of reports pertaining to CSPCC sponsored events.
4. No letters/articles will be published that may in any way, criticize any members of the CSPCC, his dog(s) or kennel, or the judging of any dog. All letters must indicate the author.
5. Any articles submitted must include the author. Any articles submitted to the newsletter that will entail considerable cost to publish must be approved by the Executive prior to publication.

WrinkleGram is the official newsletter of the Chinese Shar-Pei Club of Canada. There will be no fewer than two issues per year. Articles of interest, letters, etc. are to be sent to the editor. Telephone submissions are NOT acceptable. All advertising copy is also sent to the editor. The WrinkleGram editor reserves the right to accept, edit or reject any copy received for publication or advertising. Articles are the responsibility of the correspondent. Content does not necessarily reflect the policy of the CSPCC or the opinions of the editor.

Permission to reprint any article appearing in the WrinkleGram is hereby granted, unless otherwise stated. We ask that you credit the author of the WrinkleGram, also providing the editor with a copy of the publication.
